

Policy For Course Assessments For GWSS Major/Minor Credit

GWSS majors and minors should fulfill their degree requirements as detailed on our [website](#) through courses offered by the department. On rare exception, the undergraduate committee will consider rationales and syllabi provided by students for classes from outside of GWSS that may count for credit for the major or minor. Please fill out the [Google Undergraduate Course Approval Form](#) ([also available as a pdf](#)) and provide a syllabus. Applications will be assessed for evidence that the course exposes students to analytic rubrics that are critical to GWSS (e.g. race, gender) and furthers the interdisciplinary feminist and/or queer methods of the major and minor. A request for a course assessment should be made as soon as possible to ensure timely review.
